To meet the continually expanding requirements of business for chairs, we have concentrated our production on styles and designs which we know, from past experience, will meet our customers' needs.

Forty-four years of chair manufacturing, and a continuous program of plant and machine modernization, combined with the efforts of skilled workmen, has given us the experience which assures our dealers and their customers of a dependable source of supply for "Chairs for All Business"—designed for comfortable seating—correctly styled—and representing the utmost in durability and sound value.

As we present this catalog our customers can be certain that ours is a policy of constant improvement—in plant facilities, personnel and in every chair we manufacture.
